TOROS

KH SERIES BREATHER

For more info visit torosfiltrasyon.com

The Toros KH Series desiccant breathers are designed to handle high flow rates and operate reliably in harsh environments, while offering easy maintenance and a high dirt-holding capacity.

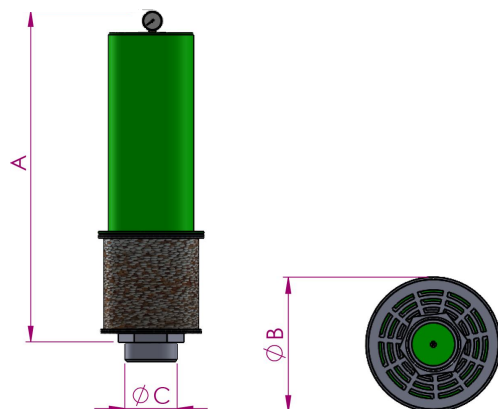

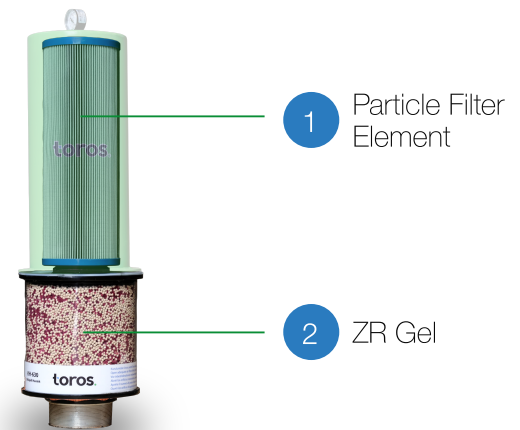

ZR Gel has the ability to indicate lifetime which allows the users service the breather on time, thus reach utmost efficiency.

PRODUCT CODE	KH-630	KH-1000
Temperature Range	-40°C to 90°C	
Filter Efficiency	3 µm absolute (β ₃ ≥ 200)	
Adsorption Material	ZR Gel 3-6 mm Non-Toxic	
ZR Gel Volume	3.000 cc	6.000 cc
Amount of Dessicant	1.540 gr	4.620 gr
Water Adsorption Capacity (Maximum Water Retention)	864 ml	1.728 ml
Color Indication	Red to Beige	

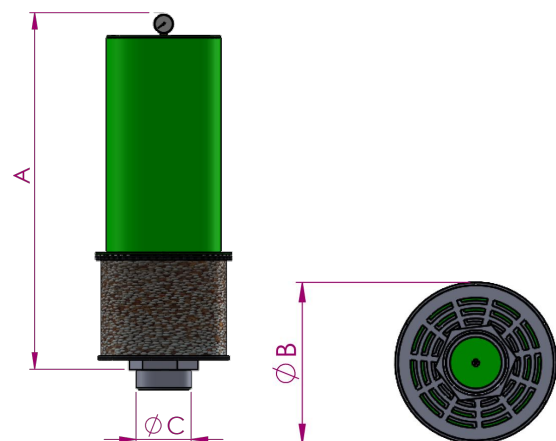

PARTICLE FILTER ELEMENT	TF-630.3VG	TF-1000.3VG
Filter Efficiency	3 µm absolute (β ₃ ≥ 200)	
Filter Media	Synthetic Glass Fiber	
Filtration Surface Area	14.465 cm ²	18.174 cm ²
Dirt Holding Capacity	156 gr	234 gr

SPARE PARTS	KH-630	KH-1000
Air Filter	TF-630.3VG	TF-1000.3VG
ZR Gel Refill	3.000 cc	6.000 cc
Spare Kit*	YK-630-3	YK-1000-3

* The sparekit contains 1x air filter, 1x refill container, 2x foam filters, 1x bottom seal sticker.

KH-630 A: 695mm B: 222mm C: 4"

KH-1000 A: 710mm B: 272mm C: 4"
